# Plan

- Our priority will be our customers and their daily life requirements.
- There will be many users visiting the portal and hence we require a strong and reliable frontend which can withstand the users on our site.
- The data we will be consisting is very important that can help everyone and hence we need a Strong database.
- We will be putting an effort to provide the right choice to the people when they plan a holiday and beware them from false advertising.

# Measure of Uniqueness

- In this project we cover approx. all the daily life requirements and tourists hub.
- In this we are providing best staffs who are very caring and hospitable with the tourists.
- Apart from the available packages we let our customers choose the package which best suits their need.

# Conclusion

Nowadays people go to some place where they do not know anything about that place and if they need anything, then they ask people about that place. At such times our software will help those people.

- Our portal will help to get it to the right place where the consumer wants to go.
- if they doesn't understand the map of our portal, then there are some people who will help him reach the right place.
- As soon as our software is operational, it will show the list of all the members who will be available to help.
